## WORK EXPERIENCE

### Frontend Developer

2022 - 2025

REHUB FORCE GmbH, Cologne (remote), Germany

- **Expertise in Frontend:** Development and implementation of a Web App using **JavaScript**, **MaterialUI** and **Remix**, consistently translating designs from **Figma** into **responsive**, user-friendly interfaces. Responsible for developing the **Component Library** for the project, **page components** such as login, dashboard, project page etc. and **landing page**.
- **Full-Stack Knowledge & Collaboration:** Comprehensive understanding of the entire application architecture, including Backend services, Cloud infrastructure, Testing frameworks, and CI/CD runners, facilitating seamless collaboration in cross-functional teams.
- **Agile & Scrum Methodology:** Actively contributing in an Agile environment, working in sprints and Scrum methodology to ensure timely delivery of high-quality software features.

### Junior Frontend Developer

2021 - 2022

TI Software Solutions LDITA, Brazil (remote)

- Development of components for web applications using HTML, CSS, JavaScript and React.
- Implementation of a responsive design for user-friendly application. Use of React custom Hooks and reusable components for efficient and structured applications.

### Quality Engineer

2012 - 2020

Stoz GmbH, Rottenburg, Germany (2018 - 2020)

Bosch Rexroth & Andritz Separation, Pomerode, Brazil (2012 - 2017)

Experience in the Quality field, working with tests and releases, intensive interaction with clients and production complaints, coordination of product samples, root cause analyses and continuous improvement actions.

## ACADEMIC BACKGROUND

### Full Stack Web Development Bootcamp

2021

Spiced Academy, Berlin, Germany

12-week full-time course covering the following topics:

- Deep understanding of **HTML**, **CSS** and animations
- **JavaScript** loops, callback functions and asynchronous coding. Clean and efficient JS code.
- **React** functions, hooks, custom hooks and nested components to create structured and efficient web applications
- Use of **Next.js** to create highly scalable web applications.
- Build robust backend using **API routes** and **PostgreSQL** database

### Diploma, Production Engineering

2011 - 2016

FURB University, Blumenau, Brazil

## ACADEMIC AND PRIVATE PROJECTS

### [aquiteturatk.com.br](https://aquiteturatk.com.br)

React, Hostgator, Cloudinary

A responsive website developed for an architecture office. Deployed on Hostgator server, photos hosted on cloud and UI developed with React.

### [guide.me](https://guide.me)

React, Redux, Node.js, PostgreSQL, AWS

A social network using Google Maps API with the features of adding a pin on the map, news feed, comments session, friendship requests.

### [personal portfolio](#)

React, Tailwind CSS, Motion

Work in progress! A responsive personal portfolio with project, skills, contact and experience session. Seamless transitions, loader function and dark mode for a smooth User Experience.

### NatureGermany

Vue.js, Node.js, AWS, PostgreSQL

An image board with pictures of Germany's nature. Users may upload new photos and leave a comment at others posts.
